

## First Shine Kit: The Complete Professional Treatment

The **Primo Splendore Kit** from Pietre di Rapolano is the definitive professional system for those who need to undertake the first treatment or deep restoration of natural stone, travertine, or marble floors and coverings.

This case has been configured to offer a turnkey solution capable of covering a surface area of approximately **10/15 m2**, ensuring invisible yet extremely resistant protection against stains and wear and tear.

### **Kit Contents:**

The professional black case contains everything needed for a perfect result. Impeccable:

1. **C1.08 - Degreasing Detergent (1 Liter):** A highly effective concentrated

alkaline detergent. It is essential for post-construction cleaning or for thoroughly degreasing heavily soiled surfaces before protective treatment. Removes organic residues, waxes, and stubborn dirt without damaging the stone's structure.

2. **T3.31H - Eco-Friendly Stain Repellent Impregnator (1 Liter):** A cutting-edge, solvent-free protector, ideal for rough or natural surfaces. It penetrates deeply, providing a total barrier against liquids, oils, and greases without altering the stone's original appearance. Being water-based, it is safe for the user and the environment.
3. **C1.07 DAY - Neutral Spray Detergent (100 ml):** Your daily ally. A ready-to-use, pH-neutral cleaner that gently cleans, removing dirt without stripping natural finishes or existing protective treatments. Leaves the surface clean and fragrant.
4. **Professional Microfiber Cloth:** Specifically designed for evenly spreading products and removing any excess, ensuring a streak-free finish.
5. **Technical Sponge:** Ideal for localized application or for mechanically working with the C1.08 detergent on areas requiring greater cleaning power.
