

## Stain-Resistant Impregnating Agent Without Solvents for Natural Surfaces

T3.31H is a water-based, solvent-free stain-resistant impregnating agent specifically formulated for deep protection of surfaces made of natural materials. It does not alter the color, maintaining the natural effect of the material, and offers excellent protection against oil, grease, and wine stains. Easy to apply and non-yellowing over time.

## Main Features and Benefits

The **T3.31H** treatment offers advanced and long-lasting protection, combining effectiveness with respect for the original appearance of the surface:

- **Water-Based and Solvent-Free:** Eco-friendly formulation with reduced impact.
  - **Guaranteed Natural Effect:** Does not change the surface color and provides a completely natural effect. Leaves no residue.
  - **Superior Stain Protection:** Powerful protective action against common staining substances such as **oil, coffee, grease, wine**, etc.
  - **Full Absorption Impregnating Agent:** Penetrates deeply ensuring effective protection.
  - **Excellent Water Repellency:** Effectively repels water.
  - **Long-Lasting:** Does not yellow over time.
  - **Easy to Apply:** Ready-to-use product with simple application.
- 

## Recommended Materials

**T3.31H** is designed for all natural surfaces , including materials with sanded, split, or bush-hammered finishes.

- Travertine
- Marbles
- Granites
- Natural Stones

## Application Fields

Ideal for protecting areas with high exposure to stains and wear:

- Kitchen and Bathroom Countertops
  - Flooring and Stairs
  - Cladding
  - Tables, Thresholds, Windowsills, and Benches
-

## Usage Instructions (Simple Application)

1. **Preparation: SHAKE BEFORE USE.** Apply only on clean and completely dry surfaces.
  2. **Application:** Spread **T3.31H** evenly using a brush with cross strokes or a low-pressure sprayer.
  3. **Yield:** Depending on the surface absorption, it is recommended to apply 2 consecutive coats.
    - **Indicative Yield:** 1 L covers approximately 6-10 m<sup>2</sup> (actual yield varies based on material porosity).
  4. **Temperature:** Apply in an environment with a temperature between 5° and 20°.
- 

### ⚠ Important Warnings

- **Warning:** The product **does not offer protection against acidic substances.**
  - Keep out of reach of children.
  - Store in the original, tightly closed packaging at a temperature between 5° and 20°.
  - Before use, consult the label and the Safety Data Sheet (SDS) for correct instructions on the use of personal protective equipment.
- 

## Dimensions

30 × 15 × 15 cm

## Weight

1,5 kg
