

Travertine slab “Leather Brown”

Leather Brown is a color choice extracted from darker quarries. The stone structure is very compact and the characteristic travertine holes are almost absent.

The color is **light brown**, but the stone structure is clearly visible. Our selection of Leather Brown travertine is ideal for flooring and cladding for both indoor and outdoor use.

- Easy to clean.

- It has good tone uniformity

Consult the technical information to see the various possible combinations of formats and surface finishes available.

Dimensions

N/A
