

Travertine mosaic “5.0×10.0 Multicolor” Split

For this **travertine mosaic**, we selected a blend of beige, yellow, and brown tones. The tiles are cut into strips of 5 x 10 cm with a “Split” finish suitable for **decorative coverings**.

Travertine is a sedimentary stone formed by layering. The “Split” **finish** is **achieved by bursting the stone** with special presses along the natural sedimentation plane.

- Each box of this mosaic contains 5 sheets equal to 0.46 m²

Dimensions

35 × 35 × 11 cm

Weight

24 kg

Format

Sheet 30.5×30.5×2.5cm
