

Ice Vein Travertine

The **ICE** travertine selection is characterized by **ice-gray veins and spots**, with a moderately uniform color and light **tone-on-tone clouding**.

It comes with the distinctive **Pebble antique finish**, achieved by tumbling the stone with abrasive substances, and is ideal for rustic exteriors and interiors due to its low slip value.

Rich and intense, this selection is perfect for creating stunning sinks and for unique combinations.

- Easy to clean.

- Features color variations and veins in gray/brown tones

Consult the technical information to see the various possible combinations of formats and surface finishes available.
